Child & Adult Care Food Program

Ext. 6509

What is the Child & Adult Care Food Program?

The Child & Adult Care Food Program is a part of the National School Lunch Act, which benefits all preschool and school age children, and is funded by the USDA.

The Child & Adult Care Food Program (CACFP) provides:

- Reimbursement for nutritious meals served
- Training in nutrition and child care
- A resource center for providers

Who can participate in the program?

Any registered child care provider who cares for one or more day care child in his or her home may be eligible for our services.

How will the program help me?

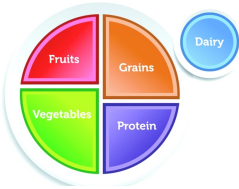

Increased Profits

Your profits will increase because you will no longer have to pay for all the costs for providing meals and snacks to your day care children, and parents need not bring food into your child care home.

You will be reimbursed for meals you serve to the children (and your own children if you qualify for that benefit) under the age of 13.

Meal Planning Resources

You will receive guidance in menu planning and information about child care and development through our biannual newsletters and annual trainings.

Networking Opportunities

You will meet providers just like you and exchange ideas about how important your role is in impacting your community by serving as a child care provider.

How much will I be reimbursed?

Once you are in the program, you will receive a monthly check reimbursing you for the meals you served which met the USDA requirements. You can claim up to two meals and one snack per child per day. The rates of reimbursement this year (July 2018-June 2019) are:

	<u>Tier I</u>	<u>Tier II</u>
Breakfasts	\$1.31	\$0.48
Lunches/Dinners	\$2.46	\$1.48
Snacks	\$0.73	\$0.20

What type of records must I keep?

The records you must keep for the CACFP are:

- Monthly menus which list meals that you serve
- A monthly invoice form which logs the dates, hours, and meals served to the children in your care
- A monthly attendance sheet
